

Cardiac CT Luminary Site Mini Fellowships 25 or 50 (non-course) cases

To Help Meet Level A or Level B CTCA Specialist Training Requirements.

MonashHeart provides a number of cardiac CT “mini-fellowship” options with either 25 or 50 mentored cases in a real practice (non-course) setting to contribute to level A or level B specialist training or re-accreditation requirements for conjoint committee (VSANZ, ANZAPNM, RANZCR) recognition of training in CT coronary angiography*. Logbook certification will be provided by Australian Level B CTCA experts.

Requirements for Acceptance into MonashHeart Mini Fellowship:

- ACC/SCCT level 1 or level 2 CTA structured training course or Level A or level B Australian accreditation.
- Completion of “medical observership” requirements for Monash Health including a police check in accordance with Monash Health requirements.

Faculty:

Associate Professor Sujith Seneviratne, Head of Cardiac CT, MonashHeart, Monash Health

Duration:

The mini-fellowship can provide mentored live case reporting and/or non live (library) mentored cases and can be expected to be completed in four to five days (25 live cases).

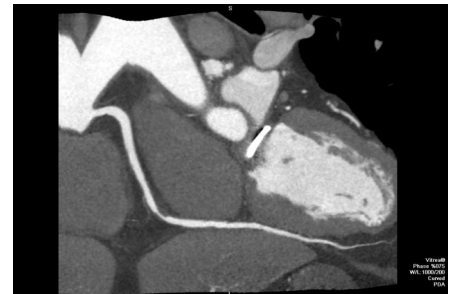

Tuition:

\$5,000 (plus GST) for 25 mentored live cases

\$3,500 (plus GST) for 25 mentored live cases (those who have completed the CVCTA/MonashHeart CTA course)

\$9,000 (plus GST) for 50 cases (25 live)

\$6,500 (plus GST) for 50 cases (25 live) (those who have completed the CVCTA/MonashHeart CTA course)

Venue:

Cardiac CT Luminary Site (320-Slice Aquilion One), MonashHeart, Monash Health. Free car parking is available onsite.

Dates:

Dates available to suit participants. Please contact Anna White on +61 03 9594 4315 or anna.white@monashhealth.org

*Participants should ensure that the “mini-fellowship” meets their personal requirements for cardiac CT training or re-accreditation.
